this book is a question book that offers single best answers sba to 300 questions related to topics in general medicine in order to further enhance knowledge and understanding detailed answers have been included this book is designed as both a revision and learning aid with questions being set in a mock examination format which can be completed under timed conditions the primary target audience of this book is clinical medical students who are revising for examinations however questions have been planned in a way that a fairly large secondary target audience will be reached as well this includes students who are transitioning from pre clinical to clinical as recently qualified medical graduates who have had the option of both online and book based questions the authors feel that students often prefer a single best answers book that aids them in advancing their medical knowledge rather than online question banks which can often have very repetitive and one dimensional questions having questions in paper format replicates examination conditions better than online question banks and therefore offers a more realistic revision experience in addition though sbas are becoming increasingly more common as an examination style with medical schools there are very few sba question books available as such medical students will find this book highly useful in the preparation for their examinations
