re reading zola and worldwide naturalism continues the discussion of mile zola and  
french naturalism with examinations of unexplored areas of the founding father s  
project and legacy in addition to offering essays on zola s lesser known naturalist  
contemporaries the volume extends the investigation of the naturalist literary current  
to include areas of europe outside france as well as the americas and asia tracking  
its persistence in various forms through the twentieth century and into the twenty first  
the authors pay particular attention to the ways naturalism was conceived and then  
received including in other channels undergoing transformations in new social  
conditions and creating other versions of the basic precepts this work features  
multidisciplinary and comparative approaches to the study of naturalism paying  
tribute to anna gural migdal a professor of french literature and film studies at the  
university of alberta in canada who specializes in the visual aspect of zola s rougon  
macquart novels and the transfer of these strategies to naturalist film she has been a  
leader in the field of zola and naturalism in her role as president of the aizen for  
almost fifteen of its twenty years of existence

during its century long unfolding spreading in numerous directions husserlian  
phenomenology while loosening inner articulations has nevertheless maintained a  
somewhat consistent profile as we see in this collection the numerous conceptions  
and theories advanced in the various phases of reinterpretations have remained  
identifiable with phenomenology what conveys this consistency in virtue of which  
innumerable types of inquiry scientific social artistic literary may consider themselves  
phenomenological is it not the quintessence of the phenomenological quest namely  
our seeking to reach the very foundations of reality at all its constitutive levels by  
pursuing its logos inquiring into the logos of the phenomenological quest we discover

indeed all the main constitutive spheres of reality and of the human subject involved in it and concurrently the logos itself comes to light in the radiation of its force tymieniecka
