Mississippi's foundational epoch in which the state literally took
shape has for too long remained overlooked and shrouded in
misunderstanding yet the years between 1798 when the Mississippi
territory was created and 1840 when the maturing state came into its
own as arguably the heart of the antebellum South was one of
remarkable transformation beginning as a Native American homeland
subject to contested claims by European colonial powers the state
became a thoroughly American entity in the span of little more than a
generation in Old Southwest to Old South Mississippi 1798 1840
Authors Mike Bunn and Clay Williams tell the story of Mississippi's
founding era in a sweeping narrative that gives these crucial years the
attention they deserve several key themes addressing how and why the
state developed as it did rise to the forefront in the book's pages
these include a veritable list of the major issues in Mississippi
history a sudden influx of American settlers the harsh saga of removal
the pivotal role of the institution of slavery and the consequences of
heavy reliance on cotton production the book bears witness to
Mississippi's birth as the twentieth state in the Union and it
introduces a cast of colorful characters and events that demand
further attention from those interested in the state's past a story of
relevance to all Mississippians Old Southwest to Old South explains
how Mississippi's early development shaped the state and continues to
define it today

The Routledge Handbook of Motherhood on Screen offers a comprehensive
global analysis of the representation of mothers and motherhood in
contemporary screen industries and online spaces over five distinct
